Size (Number of Employees, Annual Donations)

Proposed Use of Qlik Technology

How would you like to use Qlik? Please describe in detail what challenge you are trying to solve with context to types of data this would bring together.

How would you like to use Qlik? Please describe in detail what challenge you are trying to solve with context to types of data this would bring together.

How do you currently get to the data you need and how do you envision Qlik can help?

What is your goal or proposed outcome of having this data in the Qlik?

How could the proposed Qlik application impact outcomes or help achieve the mission of your organization?

Do you have a proposed timeline for this project, is there a goal to meet and why (i.e., presentation at UN Climate Change Summit)?

Technology Environment

How many Qlik licenses are you requesting? If you don't know the license requirement, please detail how many users, or how large a user community you hope to support?

Do you have the hardware to support this request or would you require hosting services provided by Qlik?

☐   Yes, we have hardware

☐   No, we require hosting services

What data sources do you anticipate using with Qlik (i.e, Salesforce, Excel, Data Warehouse)?

Is anyone in your organization trained in using Qlik or would you require help developing and using Qlik?

☐   Training needed

☐   No training necessary

Do you have a proposed timeline for this project, is there a goal to meet and why (i.e., presentation at UN Climate Change Summit)?

How many people do you estimate would require training and where are they located?

We appreciate your vision for how Qlik could support your organization's mission. Please email your completed application and questions to changeourworld@qlik.com. *Any data submitted by you will be treated in accordance with Qlik's Cookie & Privacy Policy.*

How did you hear about the Qlik Software Grant Program
